

REMARKS

Claims 1-4, 6-9, 11-14, and 27-29 are pending in this application. No amendments have been made or new claims added. Claims 1-4, 6-9, 11-14, and 27-29 are pending and were rejected on the ground of non-statutory obviousness-type double patenting as being unpatentable over claims 1-20 of U.S. Patent No. 7,079,706 to Peterson ("Peterson").

The attached Terminal Disclaimer is being filed to overcome the rejection based on non-statutory double patenting as Peterson is commonly owned with the present application.

The Office action also states that a "lenticular" image is not patentably distinct from a "composite" image. The applicant interprets a lenticular image to be one type of composite image that may be used to make lenticular novelty items.

The applicants submit that the application as a whole is in a condition for allowance, and such action is requested at the examiner's earliest opportunity. The examiner is encouraged to contact the applicants' undersigned attorney with any questions regarding this response or the application as a whole at the telephone number indicated below. If there are any additional fees or refunds required, the Commissioner is directed to charge or debit Deposit Account No. 13-2855.
